Education

PhD	The University of Tokyo , Precision Engineering - GPA: 2.80/3.0 - Awards: The University of Tokyo Fellowship	Tokyo, Japan Oct 2023 – present
Master	Tsinghua University , Electronic and Information Engineering GPA: 3.62/4.0	Beijing, China Sept 2020 – June 2023
Bachelor	Tsinghua University , Measurement and Control Technology and Instrument GPA: 3.42/4.0	Beijing, China Sept 2016 – June 2020
Second Bachelor	Tsinghua University , Economics	Beijing, China Sept 2017 – June 2020

Publications

Sampling-Based Motion Planning Using DMPs Under a Novel Scaling Approach Jianqiang Chen, Yusheng Wang, Ryota Takamido, Jun Ota doi.org/10.1109/LRA.2026.3711877 (IEEE Robotics and Automation Letters)	Sept 2026
Data Fusion of Dual Foot-Mounted INS Based on Human Step Length Model Jianqiang Chen, Gang Liu, Meifeng Guo doi.org/10.3390/s24041073 (Sensors)	Jan 2024
An SVM-Based Pedestrian Gait Recognition Algorithm Using a Foot-Mounted IMU Jianqiang Chen, Jeffrey Zhu, Meifeng Guo doi.org/10.1109/ICET55676.2022.9825019 (2022 IEEE 5th International Conference on Electronics Technology (ICET))	May 2022
Design of Miniaturized MEMS Gyro North Finder Based on Two-Phase Axial Flux PMSM Xueling Zhao, Chengbin Wang, Jianqiang Chen, Bin Zhou, Rong Zhang doi.org/10.1109/I2MTC48687.2022.9806647 (2022 IEEE International Instrumentation and Measurement Technology Conference (I2MTC))	May 2022

Skills

Robotics

Programming

Embedded Systems

Languages

Chinese

Native speaker

English

Fluent

Japanese

Intermediate

Interests

Robotics

Sports

Travel

Projects

Pedestrian Navigation

Mar 2020 – Aug 2023

Engineering Research Center for Navigation Technology, Department of Precision Instrument, Tsinghua University

- Developed an embedded system for pedestrian navigation
- Developed pedestrian motion-state recognition algorithms
- Established a pedestrian motion-state database

Microsphere Cleaning Device for Biological Detection

Nov 2018 – Mar 2019

School of Medicine, Tsinghua University

- Simulated fluid flow in the cleaning device using COMSOL
- Developed control software for the cleaning device

Paper-Based Pressure and Displacement Sensors

Oct 2017 – Sept 2018

Department of Precision Instrument, Tsinghua University

- Designed sensors that use conductive coatings to detect displacement and stress
